

Build a Strong Foundation in Math

Math fact fluency and fractions are two of the biggest challenges in elementary math and they are also the strongest predictors of future mathematics success. **ExploreLearning Reflex** and **Frax** give students the skills (and confidence) in these foundation topics, so they can take on what comes next!

R Reflex Grades 2-6

Solve the math fact fluency problem with Reflex

Reflex makes it easy for students to become math fact fluent and get ready for more complex math. Full of games that students love, Reflex helps all students master their math facts and gain the confidence to keep learning. And because it is fully adaptive, students get the individualized instruction they need to be successful.

Why teachers love Reflex

- Individualized instruction
- Game-based and fun
- Measurable results
- Engaging and effective
- Easy to use

F Frax Grades 3-5

Make fractions finally make sense with Frax

Frax uses the latest research-based instructional methods to create a more effective, more engaging way for students to learn fractions. Fun challenges, personalized instruction, and motivating rewards help all students build mastery—all while exploring the galaxy with fractions!

Why teachers love Frax

- Adaptive instruction
- Game-based and story-driven
- Fun and effective
- Real-time classroom data
- Research-proven approach
